How To Master The Gimp 2.4 Video Tutorials RESALE RIGHTS INCLUDED! Who Else Wants to Start Designing Their Own Headers, eBooks and Graphics? Now, theres a 1-2-3 Fast & Easy Way For You To Master GIMP And Start Designing Amazing Graphics In 180 Minutes Or LESS And It doesnt matter if youre a complete graphics newbie or a seasoned design pro, you can discover the secrets of GIMP and create graphics that practically JUMP off your screen! Do you want to start creating your own graphics using GIMP, but have no idea how to get started? Are you already a graphics expert but struggle when you try to de-code the tricks and unusual interface of GIMP? Well I am about to reveal the step-by-step guide to becoming a GIMP guru and make your graphics stand out from the crowd in under 3 hours! GIMP is an amazing Open Source graphics program that is practically a direct clone of Adobe Photoshop. This incredible graphics program is FREE to download and use and the quality of graphics that GIMP produces is superior to any program that costs \$200, \$400 or even \$600 dollars! Its really no surprise that GIMP has become a favorite with seasoned experts and graphic newbies all over the globe. But there is one thing that really holds most people back from becoming a GIMP master learning how to use it can be

overwhelming even for graphic designers who use these types of programs on a daily basis. You Are Not Alone I have heard so many people say, My friend uses GIMP and designs the most amazing graphics, but every time I try to use it I just get confused and close it out. Does this sound familiar? Have you ever closed GIMP out of frustration before you made your first design? You are not alone in your aggravation, even expert graphic artists like myself, have problems adjusting . But I am here to tell you that you can de-code the secrets and unlock the mysteries of GIMP in only a few hours. Hello, my name is Deep Arora and I have used every program known to man, I have paid top-dollar for the so-called best programs on the market and I have learned (the hard way) that the most expensive isnt always the way to go. When I first heard about GIMP I was very curious. I loved the idea of a high-quality open source graphics program and I wanted to know everything there was to know about it. I downloaded the program immediately and started using it right away but I just kept hitting a brick wall. I felt overwhelmed and confused. I mean, I really didnt expect to be a GIMP genius on my first try, but I just wanted to feel confident that I knew what I was doing. This probably sounds all too familiar. Finally, after hearing one too many people rave about GIMPs amazing quality, I decided that I wasnt going to be intimidated by this one simple program again. It took a couple of weeks but I finally started to get the hang of things. After I discovered the basics and the shortcuts, I moved on to the advanced stuff and before long I had become a GIMP guru. It wasnt long until other people started asking me for tutorials or for help and that is when I decided to create A Simple, Easy-To-Follow, And Entertaining Video Tutorial On How To Become A Seasoned Pro At GIMP My GIMP Video Series is really like nothing else. It doesnt matter if you are a: - Graphic designer looking for top-quality - Website owners needing powerful images that get attention - Newbie artists who wants to start designing your own graphics - Internet marketer who is tired of paying ridiculous fees for simple graphic work - Anyone, anywhere who is simply curious about GIMP or graphic design You can discover the secrets to create top-notch graphic work in under 180 minutes! Even if you have never used any other graphics program my video tutorial will allow you to discover all the little tricks, step-by-step. You will be amazed at your own abilities and you will be amazed at how easy it really is (once you know exactly what you are doing). With my GIMP Video Series I leave no stone unturned. I will show you every tool, every trick and every shortcut you need to start designing amazing graphics.
