

Mp3 7b - Hex

[DOWNLOAD HERE](#)

hex 1 |heks| verb [trans.] cast a spell on; bewitch. The second CD from artist/producer 7b. "Hex" is an eclectic blend of hypno-electronic music that spans from Deep House to Nu Jazz. Just think of it as an amazing mixed tape. 10 MP3 Songs ELECTRONIC: Deep House, ELECTRONIC: Electronica Details: O.K. From my last CD and bio, you should have figured out my philosophy for making music. It's personal, spiritual and connects us all. I'm not sure how to update my bio except that by mentioning on this CD, HEX, I really feel that I've grown as an artist and haven't allowed myself too many rules to write around. I just wanted to like every song that I heard on it and that took me a little bit longer to compile than I had originally anticipated. The last one was more based on a made up word that I thought was fun and did have fun with. If it also isn't clear by now, I use and love my mac. I just upgraded to an even better and more powerful one so... expect a lot more from me! Lord knows I do of myself. I still have a day job, so don't worry all of you who think that I should keep it, but keep that to yourself please, it's my dream and I intend to live it! It's been suggested that I write more in my bio to keep you spending more time on this page, but if you're anything like me, then let's just get to the point! Listen and hopefully enjoy! Peace, Othoniel People who are interested in Mark Farina Danny Tenaglia should consider this download.
