Dennis is a speaker who teaches seminars on the topics in his book. He is a teacher of the science of mantra and the ancient art of overtone singing, a practice that maximizes the healing potential of the human voice. He leads groups in singing chants from different world traditions, in sound healing circles, shamanic drumming and crystal bowls. To learn more about Dennis and his work, please visit whyislife. Chant Magic is different from many other chant CDs in several ways: - Most chant CDs are from one particular culture, usually Indian/Sanskrit. Chant Magic includes chants from several cultural traditions, done in a fusion of world music styles. - It is meant for a western audience and is more accessible than many chant CDs. - The music on Chant Magic is arranged in a more playful, less somber way. It is more rhythmical and melodic, while retaining a deep meditative quality. Chant Magic comes with a booklet which includes: - information about various aspects of 'sound healing' - lyrics, chords, translation and interpretation of each chant. - information about 'the consciousness revolution'.
