So many dimensions, journey into the real, this album is unlike anything you have ever heard, a MUST LISTEN.. Forensic's are Definitely on the scene.....Recognize..... 17 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: East Coast Details: Support the real. Represent. Come correct. Rappers spout these clichs as they espouse the merits of originality in hip-hop music, but in reality the creative process in hip hop is simple: Some cat comes out with a new interpretation of a preceding style, hits the commercial jackpot, and then everyone in the industry scrambles to replicate that formula, this is definitely not Forensic thinking! What this process fails to recognize is that the true innovators, the ones that leave you winded CANT be copied, which is the essence of their forensic gift. A Queens native and a Chi-town emcee combine to War against the forces of the secular beast which currently brainwashes the masses and controls many souls with this vehicle we call music. Forensic Abolitionist (Antahlyzah JL, Jehovah Leads) has emerged to give many another option or method of escape from this current matrix in which you live. If you choose the blue pill you will simply stay asleep on your current mental (Plane) of what you know as reality, on the other hand if you choose the red pill you will you will be so shook and awaken that you will release yourself from the seat belt (mental chains) and walk up to the cockpit to see the force navigating your current flight of reality. Our meeting was a divine encounter, we both have divine messages for the sheep from the higher source directly so we choose to come together and abolish the current slave mentality of our people. The understated but solid production on the album shines the spotlight directly on the lyrical talents of these two wordsmiths who carry the banner of hip hop music you don't have to take with a grain of salt. This is what nobody wanted you to hear... THE TRUTH. You can also check out the Forensics on Myspace just copy the the link and get connected!!!!
