

# Mp3 Joshi P - People On The Planet

Electronic crap for your head 8 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Industrial  
Details: This is the next installment in the commercial sleazery and noise that is a parody of modern bollocks. It is a slightly darker more twisted affair than my first CD "SOKAZI". Featuring more world music sounds (flute, cello, guitars, native vocal, Kung Fu bizarre audio code) coupled with commercial noise pastries. Each song tells a story and certainly cases it's own personality to the next. You work it out!
