melancholy piano music rooted deep with haunting undertones; a meshing of classical training and alternative influences 9 MP3 Songs ELECTRONIC: Soundscapes, NEW AGE: New Age Details: "Kelly Cavagnuolo's unique style is sure to take her far. Her dark, beautiful compositions are characterized by haunting arpeggios and melancholic mood. Kelly is for any fan of piano music who appreciates the vivid sounds of Debussy" - Riffage.Com What listeners are saying:...."tragically beautiful"... "passionate, concise playing"... "played with conviction"... "this music falls under the category of beautiful"... "it's been a while since I've come across a chill-inducing song"... "gorgeous songs". Kelly draws her inspiration from the tragic works of Chopin, the brilliant simplicity of Satie and such modern-day masters as Bjork, Depeche Mode, Portishead, The Smiths, Fiona Apple. Although classical training and influences are at the core of nearly every one of Kelly's songs, the final product is anything but 'classic'. Kelly lives in the SF Bay Area and is also a member of the indie band MERE, and is currently recording their debut album 'Beautiful Things' due for release in December 2005.
