Jimmy Buffett meets bluegrass soup on this new CD from Searce and Ketner, their 5th. 11 MP3 Songs

COUNTRY: Country Rock, COUNTRY: Bluegrass Details: Searce and Ketner are to music as a margarita and sailboat are to a hot summer day in the islands. They have been raiding the east coast from the Carolinas to Boston, to the Florida Gulf Coast for more than 10 years. Dicky Searce and Jack Ketner met in the mid eighties while performing with the Carter Bros. Band. This group gave them a chance to hone their musical skills in such far flung places as Norway, Canada...most of the US all the way to Sloppy Joes Key West (their spiritual home)! Dicky's clear, powerful voice and solid guitar rhythms are perfectly matched with Jack's ringing licks on guitar, violin and mandolin. Combine their outstanding vocal harmonies, seamless stage presence, 5 CDs (3 studio and 2 LIVE!), a state of the art sound system and the effect is that of a full band rather than a duo. Highlights of their show are originals and a set of Buffett songs that will make even the most die-hard Parrothead smile! The next time you need music for any occasion, think Searce and Ketner. Have a BAND and a VACATION!!!
