Inspired by recent books and films about the search for the Grail, this album will take you a spiritual journey to help you decipher one of the mysteries of the ages. "*Grail Song*" was created by the same studio team that brought you *Guitar Garden*. THE PRIORY uses lush keyboards and guitar-synthesizer textures (such as Flute Guitar) to create a charismatic blend of Celtic, Jazz, New Age, Electronic and Progressive styles. The recording sessions for this CD proceeded at a swift pace, and tracks like *Sangreal*, *Sophie* and *Keystone* were largely composed and recorded in an exciting one-week period. Indeed, most of "*Grail Song*" was completed in under one month. This fresh inspiration gives the album a sense of spontaneity that's rarely heard these days in instrumental music.
