NYC Sadcore artist sings about love, loss and the emotions to follow. 10 MP3 Songs POP: with Electronic Production, ROCK: Modern Rock Details: "Therina Bella isn't sitting around waiting for Casper to appear. Instead, she's using her past memories as a way of therapy in her latest album,"Waiting for a Ghost". Heavily watched over by a guardian angel, Therina pulls out her dusty guitar and attacks her mournful past to display a promising future of open dreams, new love and a photo album full of wonderful memories of loved ones. This New Yorker recently released "Waiting for a Ghost" after a long year of mourning for a close family member. Her remedy of heartfelt songwriting seems to be therapeutic enough, opening up a closer relationship of the singer to the listener in her personal journal of songs. Therina's vocals are hauntingly gorgeous, able to slowly pull the petals off a blooming rose blowing softly in the wind. This CD is breathtaking and stunning. You will need to shake your head after the album is over to get the songs out, but you're not quite sure if you're ready to let go because you have been pulled in so deep. "Waiting for a Ghost" is that CD that will make your pile of favorite CDs complete by an artist that will have you wondering why you didn't discover her sooner!"-Heather Corcoran
