

Advances In Robot Kinematics

[DOWNLOAD HERE](#)

Methods in Kinematics; J. Andrade-Cetto, F. Thomas: Wire-based tracking using mutual information; G. Nawratil: The control number as index for Stewart Gough platforms; C. Innocenti, D. Paganelli: Determining the 3x3 rotation matrices that satisfy three linear equations in the direction cosines; P.M. Laroche: A polar decomposition based displacement metric for a finite region of SE; J.-P. Merlet, P. Donelan: On the regularity of the inverse Jacobian of parallel robots; P. Fanghella, C. Galletti, E. Giannotti: Parallel robots that change their group of motion; A.P. Murray, B.M. Korte, J.P. Schmiedeler: Approximating planar, morphing curves with rigid-body linkages; M. Zoppi, D. Zlatanov, R. Molino: On the velocity analysis of non-parallel closed chain mechanisms section; Properties of Mechanisms; H. Bamberger, M. Shoham, A. Wolf: Kinematics of micro planar parallel robot comprising large joint clearances; H.K. Jung, C.D. Crane III, R.G. Roberts: Stiffness mapping of planar compliant parallel mechanisms in a serial arrangement; Y. Wang, G.S. Chirikjian: Large kinematic error propagation in revolute manipulators; A. Pott, M. Hiller: A framework for the analysis, synthesis and optimization of parallel kinematic machines; Z. Luo, J.S. Dai: Searching for undiscovered planar straight-line linkages; X. Kong, C.M. Gosselin: Type synthesis of three-DOF up-equivalent parallel manipulators using a virtual-chain approach; A. De Santis, P. Pierro, B. Siciliano: The multiple virtual end-effectors approach for human-robot interaction section Humanoids and Biomedicine; J. Babic, D. Omrcen, J. Lenarcic: Balance and control of human inspired jumping robot; J. Park, F.C. Park: A convex optimization algorithm for stabilizing whole-body motions of humanoid robots; R. Di Gregorio, V. Parenti-Castelli: Parallel mechanisms for knee orthoses with selective recovery action; S. Ambike, J.P. Schmiedeler: Modeling time invariance in human arm motion coordination; M. Veber, T. Ba EAN/ISBN : 9781402049415
Publisher(s): Springer Netherlands Format: ePub/PDF
