ADVERTISERS & ADVERTISING PROVIDERS..... An Astonishing New Software Package That Will Format All of Your Text Ads Quick-As-A-Whip... With FULL Master Resell Rights! Are you tired of wasting your valuable time formatting your ads? Do you advertise in eZines? Do you advertise at FFA sites? Do you like wasting time formatting those ads prior to submission? If you answered no, then please read this sales page carefully. I'm about to introduce to you a brand new Windows software package that will help you format your ads, so that you have more time to concentrate on the important things...higher profits! Introducing...EZ-Ad Formatter V.1 Brand New Software For Easy Text Ad Formatting! Do you advertise frequently online? Are you an Ezine publisher or other advertising service provider? If you answered yes, then I'm sure you already know that using online ads is a great way to market your web sites. But, there are submission guidelines that you'll have to follow which vary depending on the provider. One of the major guidelines is ad line length -if you are submitting your ads without first formatting them...your ads just might not be getting published! Do you know what CPL stands for? Characters Per Line and the topic will most likely be brought up by all of the advertising providers that you encounter. Why so important? Whenever you purchase advertising online, the provider will give you a CPL limitation. The widely accepted format is 65 CPL. What happens if you don't submit the appropriately formatted ad copy? The advertising provider will reject your submission. So as you can see, formatting your ads to the proper CPL

is very important in the world of online advertising. Until recently, webmasters were stuck formatting ads the old fashioned way..first you would start out by typing numbers until you reach 65 characters. Then, you would use that line length to write out your ad copy. What a pain in the butt, right? Who has the time to do all of this for each ad that needs to be submitted? This is the old fashioned way of formatting your line length for advertising copy. You can easily waste most of your time each week formatting your ads using the old fashioned method. This is Especially true if you advertise in Ezines and need new ad copy 4 or even 5 times a week. OR, if you're an eZine publisher who receives free ads in the hundreds each week! I mean, advertising online is hard enough - why should you have to concern yourself with how many characters each line in your ads contain? By releasing E-Ad Formatter V.1 to the general public, I'm offering you a way to cut your ad copy preparation time in half! My new software package will allow you to format any text ad you have in seconds! After you are done downloading this new software package - you'll never have to worry about formatting your ads again! E-Ad Formatter V.1 FEATURES... #1 - Step-by-Step Instructions- If you ever get stuck, simply open up the on-board instructions menu to learn how to work this incredible new software! #2 - Full automatic software installation.
