This singer/songwriter does not fit into established categories, but draws on a wide range of influences from folk, rock to jazz. A compelling performer with a powerful voice, a gift for melody and an unexpected turn of phrase. 14 MP3 Songs FOLK: Folk-Rock, FOLK: like Joni Details: Hello, My name is Andi Neate and I am a singer/song writer based in Scotland. "Lion Taming for Astronauts" is my 4th album to date. It was recorded live with a full band earlier this year (2007)It includes old and new tracks. It has been a fantabulous adventure, capturing that moment in time, with audience, band, heart and soul. I absolutely love the cover! My band include a splattering of cello, piano, double bass and lots of harmaony vocals. They have helped bring life and love to the whole sound. I do hope you enjoy my new album as much as we did making it? You can find more from me on andineate Hope to hear from you in the future..... Andi :-)
