The bottom line is the Music is Fresh New Exciting Pro blues What a difference it makes with a great production! Although the track is quite standard and straightforward, it's very relaxing to listen to in every kind of way. The flute adds a new dimension to the sound - cool! Reviewed by: Jancomusic from Kristiansand, Norway Nice Job! This song reminds me of the 70's when music was REAL!!!! Lead and background vocals sound really good and very professional. Very different and original. Nice, soothing track. Lyrics are very catchy and the melody will be playing in my head for the rest of the night:-) Reviewed by: StephD from Stockbridge, Georgia Columbia, Cana I CAN GROOVE TO THIS The beginning riff reminds me of Voodoo Child. Vocals coming in at this point and they remind me of a little country. Got that twang in the voice. Mix sounds very good. The guitar and vocals are very pristine. Like that harmonizing at the 2:02 mark. Very upbeat good feel song. Great use of your time. Most commercial songs end at the 3:30 mark or so. I like it. Very professional sound and good musicianship! I can groove to this! Reviewed by: darrenj from Pensacola, Florida Just some damn good rockin' country music I'm not much of a country fan but I would slip this into regular rotation at the next several parties. The rhythm section rocks, the singer can sing and with 'tude and I'm kicking and stompin' in twang heaven thanks to the guitar players. If I need to nitpick to find some fault with the song it would be that the lyrics aren't all that 'deep'. They're not superficial, just that I've seen that scene before. But hey, this is blue collar common man music and it rocks and it makes me sing along and it makes me feel good. Reviewed by: Jandu from Woodland Hills, California
