Pushing the boundaries of the modern singer/songwriter genre, David Davis incorporates pop, jazz, blues, soul, and rock into his ever growing sound of music. 10 MP3 Songs FOLK: Folk-Rock, POP: Pop/Rock Show all album songs: The Light And The Grey Songs Details: Flint on flintyoull hear David Davis mutter those words if you hang out with him for any length of time. Its that notion of creating a spark that drives him deeper into his place in the music world. With both David and his music, one of the sparks hes creating involves laughter and spontaneous joy. At his concerts, the audience hangs onto every word, every story, usually laughing until the moment he begins playing. And then the songs hit the opposite end of the spectrum: deep, thoughtful, and full of hope. Hes been writing songs for the past seven years, but something shifted in 2003. Initially, playing guitar was just a fun way to pass the time. But soon after it became clear that music was supposed to be more than a hobby, David worked feverishly to finish the songs he had been writing. And David is nothing if not passionate and dedicatedhe immediately began putting together songs for his debut EP, Back Home (2005). Almost anyone who knows David knows that he is the epicenter of seemingly random blessings: things happen to him, pieces fit together, and those sparks begin to fly. So its no surprise that Back Home fell into the hands of producer Ron Diulio, who loved what he heard and agreed to produce Davids follow-up CD for free. In 2006, thanks to Rons help, David turned out his first full-length album, Redemption Road. In typical spontaneous fashion, David found himself opening for Derek Webb at the last minute. Most independent artists spend years trying to acquire a slot like that, but for David, it was his first real concert. Just like that, it was dropped into his lap. And without hesitation, he moved forward with the opportunity. A lot of things have moved into place since that first concert. Davids music has begun to take on a different shape that suits him more fully. Citing influences like Dave Matthews, John Mayer, Marc Cohn and Eric

Clapton, his newer songs have more of a soulful feel. You will also hear echoes of Vertical Horizon and even Caedmons Call (mostly the Derek years) influence, which is a welcome sound to many of his listeners. With the help of his new producer Stephen Gause, David keeps churning out songs for those listeners, playing more shows, and amassing an even wider fan base of his peers and heroes. And frankly, it will be no surprise if his music catches on like wildfire. -- by Tara Leigh Cobble
