One of the hottest cd's out right now and that's why I remixed and upgraded the quality and music. Been getting great reviews from on the website. Check out the site link. 14 MP3 Songs URBAN/R&B: Soul, URBAN/R&B: R&B Rap mix Details: Born in Los Angeles ,California ,Eijay always had love for music and interest in playing instruments. Being exposed to his first drum set at age 3 and keyboard at age 4 ,he always embraced and showed interest in musicianship. Even being told at church to don't touch the piano he always blew people away how he could hear melodies and execute them on the spot. As years went by and he approached age 14 , Rev.Rodney Ray Connors taught him the basics of music theory and chords and the rest was history. Eijay moved on in life and surrounded himself in recording studios and artists soaking up the knowledge which now has made him a one stop shop. He now has mixing,mastering,production(music and vocal),arrangement skills that many dream to have. Once he enters into the music business he will be flooded with alot of production and songwriting assignments because he now knows the business and production side. Trust me,you will see this guy on charts really soon. Don't sleep on him because many have already.
