A unique blend of bluegrass, folk and jazz with hints of Lyle Lovett to Django Reinhardt. 10 MP3 Songs
FOLK: Modern Folk, JAZZ: World Fusion Details: Free Peoples is a Americana/Bluegrass/Jazz hybrid direct from San Francisco Bay. Their music conjures up images of the wild west. They convey it through intricate melodies and delicate three part harmonies that yearn with emotion and whisperings of a landscape most have never known. This is not your grand pappy's bluegrass of the past but a synthesis of both the old and the new incorporating styles as diverse as the landscape they encompass.
