Christian Pop Rock 15 MP3 Songs SPIRITUAL: Contemporary Christian, POP: with Electronic Production
Details: Love Will Lead Us Home is fun. Every song has its own T-shirt. Its Christian music that will lift you up. The CD takes you on a journey that begins from our knees. Save Me is a rock tribute to the Ultimate Hero, with a little linkin park in the middle. Epic is like the history of salvation in three and a half minutes. Well, we left out a few things, but still. The title track brings you to the banquet feast that awaits us when we return to the Lord. Love will lead us home. Glorious Savior praises the God who is the source of all life and light. You Make All Things new is just fun stuff. If youve never been to XLT, youll want to after hearing this song. Maple Jam is the And Band jamming. Let Us Sing A New Song kinda brings chills. More Of You is my favorite song to just listen and pray to. Come To Me takes you to a different place where you feel the embrace of the One who would never turn us away. River Flow is just reggae goofy fun. Returning kind of pulls the whole thing together. Its true. The Lord HAS done great things. This CD is fun and really reflects the ministry that Karl Zimmerman has been doing the past few years. He has a great passion for the Lord and especially leading teens closer to Christ. You can come to Noon Mass at St. Catherine Laboure or 6 PM at St. Clements in St. Louis and thats where KZ and the AND band play and lead worship. Some of these songs are played at Mass, but a lot of them end up being played at a Luke 18 retreat or youth conference somewhere. As Karl might say This is good.
