alternative folk 12 MP3 Songs FOLK: Folk Pop, FOLK: like Joni Details: About the album Recorded in my bedroom on a Roland vs1880. Most of the songs were written free form. I made them up as I was recording, except for "God is Moving". The rhythm track was actually recorded in 1977 and recovered from a cassette. This cd took three years to complete. This is the follow up to my first release "5 years ago today". I hope to release more cd's and continue to use MJM RECORDS as a ministry indy label to help homeless and hurting people.
