BLUES: Rhythm Blues, JAZZ: Smooth Jazz Details: Another Tyme finds me skirting the boundaries of music styles. You could probably ask yourself if I am hearing some Jazz, Rock, Blues, Swing, Country etc. and I would say all and non. Because when you are really creating you are creating from where you are and your now experience of the music and as with my live show people have come to expect me doing being and singing where I am Feeling at that moment in time, so in effect I throw away the ideas of styles and class of music and go for interpretation and feeling. The title Another Tyme was inspired by the song The Last Time (I Give My Heart Away), as I am still fascinatingly inspired by Love and relationships and this seem to spin a lot of my lyrics, and even so with the covers that I choose. I do truly believe that Love is the reason that I am here and doing all that I am doing and I give my heart to a song as I do in my relationship because when you feel love, passion is inspired and this is all that I can hope from those who listen, is to feel the realization of the passion, then you have truly found me in Another Tyme.
