An eclectic blend of Adult Contemporary/Christian influenced by Faith Hill, Martina McBride, Amy Grant and many other great female vocalists. A singer/songwriter from Nashville. 10 MP3 Songs EASY LISTENING: Soft Rock, POP: Delicate Details: Rene, the third generation in a family of artists, has spent the last decade touring as a background vocalist with Faith Hill, Tim McGraw, Patty Loveless, Jessica Andrews, Pam Tillis, Billy Dean, and countless other artists in country, pop and Gospel music. She has appeared on most every major television network in the United States, as well as many broadcasts overseas. Her career highlight came in 2000 when she was featured on CBS during the 'Faith Hill Thanksgiving Special'. When Faith asked Rene, What does your family do for Thanksgiving?, she was able to share a very spiritual moment of how they express gratitude. That one event renewed a passion in Rene's soul for helping people build deeper relationships and experience more of Gods Grace in their lives. She even received a confirmation from within the band to "Step out on Faith" (no pun intended), into ministry. God has allowed a series of events to prepare Rene for the road ahead. One of those being Faith's decision to not tour between Soul2Soul and Soul2Soul2. As a result, Rene has been writing and recording, as well as sharing her testimony through music, speaking and teaching in various churches throughout America.
