

Topics In Stochastic Analysis And Nonparametric Estimation

[DOWNLOAD HERE](#)

1;FOREWORD;6 2;DEDICATED TO PROFESSOR RAFAIL Z. KHASHMINSKII ON THE OCCASION OF HIS SEVENTY-FIFTH BIRTHDAY ;7 3;PREFACE;8 4;Table of Contents ;10 5;PART I: ASYMPTOTIC ANALYSIS INVOLVING STOCHASTIC DIFFERENTIAL EQUATIONS ;11 5.1;SOME RECENT RESULTS ON AVERAGING PRINCIPLE;12 5.1.1;1. Non-perturbed system;12 5.1.2;2. Perturbations;17 5.1.3;3. Multiwell Hamiltonians;22 5.1.4;4. Systems with many degrees of freedom;25 5.1.5;REFERENCES;29 5.2;CRAMER'S THEOREM FOR NONNEGATIVE MULTIVARIATE POINT PROCESSES WITH INDEPENDENT INCREMENTS ;31 5.2.1;1. Introduction and main result;31 5.2.2;2. Counting random measure, its compensator. Laplace transform ;34 5.2.3;3. The proof of Theorem 1.2;35 5.2.3.1;3.1. The exponential tightness;35 5.2.3.2;3.2. The local LDP;36 5.2.4;REFERENCES;38 5.3;ON BOUNDED SOLUTIONS OF THE BALANCED GENERALIZED PANTOGRAPH EQUATION ;39 5.3.1;1. Introduction;39 5.3.2;2. Perturbative proof;44 5.3.3;3. Analytical proof;47 5.3.4;4. Probabilistic proof;48 5.3.5;5. Jump diffusions;51 5.3.6;6. L-harmonic functions ;52 5.3.7;7. Proof of the main results;54 5.3.8;REFERENCES;57 5.4;NUMERICAL METHODS FOR NON-ZERO-SUM STOCHASTIC DIFFERENTIAL GAMES: CONVERGENCE OF THE MARKOV CHAIN APPROXIMATION METHOD ;60 5.4.1;1. Introduction;60 5.4.2;2. The model;62 5.4.3;3. A discrete time approximation and randomized controls;64 5.4.4;4. Approximating the controls;66 5.4.5;5. Approximations to e-equilibria ;69 5.4.6;6. The Markov chain approximation: Brief review and approximations;72 5.4.7;7. Approximating the chain: I;78 5.4.8;8. Convergence, Part I: An approximate equilibrium for the diffusion is also one for the chain ;80 5.4.9;9. Approximating the chain: II. Representations and approximations of the chain with control-independent driving noise ;84 5.4.10;10. Convergence: II. An approximate equilibrium for the chain is an approximate equilibrium for the diffusion ;91 5.4.11;REFERENCES;92 6;PART II: NONPARAMETRIC ESTIMATION;94 6.1;ON THE ESTIMATION OF AN ANALYTIC SPECTRAL DENSITY OUTSIDE OF THE OBSERVATION BAND ;95 6.1.1;1. Introduction;95 6.1.2;2. Construction of estimators. Proof of Theorems 1, 2.;98 6.1.3;3. Lower bounds. Proof of Theorem 1.3.;103

6.1.4;REFERENCES;113 6.2;ON ORACLE INEQUALITIES RELATED TO HIGH DIMENSIONAL LINEAR MODELS ;114 6.2.1;1. Introduction and main results;114 6.2.2;2. Proofs;120 6.2.2.1;2.1. Ordered processes and their properties;120 6.2.2.2;2.2. Some examples of ordered processes;123 6.2.2.3;2.3. Proof of Theorem 1.1;126 6.2.2.3.1;2.3.1. Proof of Theorem 1.2;129 6.2.3;REFERENCES;131 6.3;HYPOTHESIS TESTING UNDER COMPOSITE FUNCTIONS ALTERNATIVE ;132 6.3.1;1. Introduction;132 6.3.1.1;1.1. Minimax approach;133 6.3.1.2;1.2. Choice of parameter set;133 6.3.1.3;1.3. Composite functions;134 6.3.2;2. Test procedure and main results;136 6.3.2.1;2.1. Test procedure;136 6.3.2.2;2.2. Main results;137 6.3.2.3;2.3. Open problems;139 6.3.3;3. Proofs.;140 6.3.3.1;3.1. Proof of Theorem 1. I;140 6.3.3.2;3.2. Proof of Theorem 2;151 6.3.4;REFERENCES;158 7;PART III: STOCHASTIC PARTIAL DIFFERENTIAL EQUATIONS ;160 7.1;ON PARABOLIC PDES AND SPDES IN SOBOLEV SPACES W_2^p WITHOUT AND WITH WEIGHTS ;161 7.1.1;1. Introduction;161 7.1.2;2. Interior estimates for SPDEs in the whole space;163 7.1.3;3. Interior estimates for solutions of parabolic PDEs in the whole space ;171 7.1.4;4. Local regularity near the boundary for SPDEs in half spaces;176 7.1.5;5. Local regularity near the boundary for parabolic PDEs in half spaces ;180 7.1.6;6. Auxiliary results;182 7.1.7;7. Existence and uniqueness for parabolic PDEs in half spaces ;193 7.1.8;8. Existence and uniqueness for SPDEs in half spaces;199 7.1.9;REFERENCES;206 7.2;STOCHASTIC PARABOLIC EQUATIONS OF FULL SECOND ORDER ;209 7.2.1;1. Introduction;209 7.2.2;2. Constructing a solution: an example;210 7.2.3;3. General constructions and the main result;214 7.2.4;REFERENCES;220 8;IMA SUMMER PROGRAMS;221 EAN/ISBN : 9780387751115 Publisher(s): Springer, Berlin, Springer, New York Discussed keywords: Stochastische Differenzialgleichungen Format: ePub/PDF Author(s): Chow, Pao-Liu - Mordukhovich, Boris S. - Yin, George
