Details: "When friends and family come together to create music, magic happens. Such was the day, June 21, 2007 on Dee Robb's birthday no less, when I was invited to Cherokee to record my newest material. Half of the tracks were recorded in the first take, the rest recorded in the second. When you feel safe, loved and supported by those you are working with, those feelings are felt, and music is delivered effortlessly. I am so thankful for the opportunity to have worked with, and to have loved, my dear friends The Robb's and all those at Cherokee!"
