Contemporary country rock guitarist with flavor and traditional country vocals 8 MP3 Songs COUNTRY: Alt-Country, COUNTRY: Contemporary Country Details: I was driving through Perris, California; when I saw a 1957 Cheverolet Nomad, perfect except it had no front end . I was compelled to stop and ask, where is the rest of the car? That"s when I met Paul Fields; he used to hang with Waylen Jennings in Las Vegas . After talking car for a while he asked; Is that a guitar in the back seat? He wondered if I wanted to come in and jam; We wrote two albums together and this is the first. So i decided this album to Paul Fields and that 57 nomad. "Vigilante Love", "Harley's Little Girl", "Forbidden Love" and "Road Trip" Paul and I wrote with a little help from Steve Wolf and Kathy Kriegel."Harley's Little Girl" is a true story about a young girl who's father went to jail and how she stold his bike and rode it to Sturges, in the studio it was a lot of fun and the harley was driven by Tony Maurillo . "Guilty of a Crime of Love" and "Don't drive my car when you are high", came from the set of "Deadwood" the HBO show. We were working as a actors when I met Pablo from Argintina he and I sat down and played like we had been playen together for years. You can hear the blend we later recorded it at Leslie's house in her living room . CPR
