This album is the aural equivalent of emerging from a deep sleep and being thrust into a life and world that is both haunting and beautiful. The sonic landscapes range from industrial rock and dance to ambient and down tempo. An extraordinary collection of 13 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Electronica Details: One Lucid Dream is an American industrial rock band out of Milwaukee/Chicago formed in circa 2005 by David Miller (Crashing Doves, Genesis Sky) As its main producer, singer, songwriter, and instrumentalist, Miller remains solely responsible for the musical direction of the band. His lyrics are largely concerned with the struggles of life, relationships, social, human and environmental conditions. As a former music production employee, Miller has worked with bands such as Skinny Puppy, Ministry, Sugercubes, Nine Inch Nails, Pigface, Faith No More, Noel and A Split Second. The live band which tours with him extensively is composed of a live drummer and guitarist. One Lucid Dream performs with visually spectacular elements and live performances often culminate in catharsis of both the audience and band. Currently the band is preparing to tour and play several festivals and charity events. Also David is working on new songs for the upcoming CD "pessimism ensues but never overcomes" due out in 2008.
