mood music for people who want not only to listen, but also to be carried away to reflective spaces 14  
MP3 Songs ROCK: Instrumental Rock, EASY LISTENING: Mood Music Details: Shades Of A Soul,  
written and produced by Paul Morgan, is a relaxing blend of blues, soulful spirited rock accentuated by  
Paul's acoustic and slide guitar stylings. Often described as a new age sound with a touch of blues, the  
songs on "shades of a soul" offers listeners a compilation of songs with a heartwrenching moodiness and  
soulful playing. Paul Morgan, born and raised in Wales, started out as a tech for the Moody Blues, Gary  
Moore, Meatloaf, Uli Jon Roth and various other rock bands. Production coordinating and touring with  
bands throughout Europe, and the UK eventually brought him to the USA. Inspired by Paul Kossoff, Eric  
Johnson, and Tommy Bolin, Paul leaned to approach the guitar in a different way and started making  
music with a distinct slant that comes from the soul.
