In 2005 Rachael received the New Music award Presenters Award at the UK Country Radio Awards was also nominated in the Female Vocalist of the Year 2005 category by the European CMA. Some reviews; "Pioneering Brit Rachael Warwick is paving the way for British artists in Country Music.....It is so refreshing to find a British artist who has the nous, the determination and the ability to get into the thick of the country music business. This girl knows what she wants, and I reckon she's going to get it" Nick Barraclough - BBC Radio 2 "Sensational doesn't do this justice, she sings like a goddess, this Brit diva belongs on a major label" Robert K Oermann - Music Row "England's Gift to Americana" R&R She's got an impressive voice, powerful and throaty. Sometimes she sounds like a 67 Chevy on the starting line at the drag strip, revving her engine. And when she lets off the brake and floors it, it's just fun to hear where she goes.
