Featuring Robust, Orel, Pugslee Atomz, Rhetorik, and Ndvisual. vyle as heard on the time travel show,CTA radio(whpk), and WNUR: introspective lyrics,topics that we've all gone thru, from jobs, summer camp to girls to the chauvinistic society that we dwell in , vyle has a very unique perspective on things,to be blunt. Delivering urbane intellectual metaphors with a consistently intense and explosive stage presence,vyle is one of the hardest working emcees in chicago performing at countless venues and peddling tapes at schools,malls,universities,skate contests,expo's and conventions. He approaches music with a eye for detail, but rounded out to be a part of life distinguishable to many, asks questions and juxtaposition of thoughts such as, "everyday i keep summer in a tin/because everyday you can wake up/and reciprocate again and again". Stay up 4-ever Battle champion 2001,this nacrobat has punchlines as well.. A proliterate's bird's-eye view of a terra form that is the almost opposite of what went on as little as 2 years ago,with topics ranging from apocalypse, to aspirations, to a 9 to 5, to females,solstice and more, constructed as a experience,to play as one total movement. With Production from producers like maker,overflo and more, and with guests like Pugslee Atomz,Robust,Ndvisual and more "Post-Paleaeontologist" is vyle's first full-length album and a refreshing look at his cities environment and its "nest's lake".
