

Interface Controlled Organic Thin Films

[DOWNLOAD HERE](#)

1;Preface;6 2;Contents;8 3;A Thin Film Growth;13 3.1;Toward an Ab-initio Description of Organic Thin Film Growth;14 3.1.1;1. Introduction;14 3.1.2;2. Computational Details;15 3.1.3;3. Results;15 3.1.4;4. Conclusions;20 3.1.5;References;21 3.2;Organic Nanofibers from PPTPP;22 3.2.1;1. Introduction;22 3.2.2;2. Experimental Methods;23 3.2.3;3. Results and Discussion;24 3.2.4;4. Conclusions and Outlook;26 3.2.5;References;27 3.3;a-Sexithiophene Films Grown on Cu(110)-(2x1)O:From Monolayer to Multilayers;29 3.3.1;1. Introduction;29 3.3.2;2. Results and Discussion;29 3.3.3;References;31 3.4;Para-Sexiphenyl Layers Grown on Light Sensitive Polymer Substrates;32 3.4.1;1. Introduction;32 3.4.2;2. Experimental Methods;33 3.4.3;3. Results and Discussion;33 3.4.4;4. Conclusions;35 3.4.5;References;36 3.5;Thermal Desorption of Organic Molecules;37 3.5.1;1. Introduction;37 3.5.2;2. Fundamentals of TDS;37 3.5.3;3. Experimental Technique;40 3.5.4;4. Wetting Layers Observed by TDS;41 3.5.5;5. Determination of Desorption Energies for Wetting and Multilayers;43 3.5.6;6. Conclusion;44 3.5.7;References;44 3.6;Crystalline Stages of Rubrene Films Probed by Raman Spectroscopy;45 3.6.1;1. Introduction;45 3.6.2;2. Experimental Methods;46 3.6.3;3. Results and Discussion;46 3.6.4;4. Conclusions;49 3.6.5;References;49 3.7;Rubrene Thin Film Characteristics on Mica;50 3.7.1;1. Introduction;50 3.7.2;2. Experimental Procedure;50 3.7.3;3. Results and Discussion;51 3.7.4;4. Conclusions;53 3.7.5;References;54 3.8;Structural Properties of Rubrene Thin Films Grown on Mica Surfaces;55 3.8.1;1. Introduction;55 3.8.2;2. Experimental Methods;56 3.8.3;3. Results and Discussion;56 3.8.4;4. Conclusions;59 3.8.5;References;59 3.9;Rubrene on Mica: From the Early Growth Stage to Late Crystallization;60 3.9.1;1. Introduction;60 3.9.2;2. Experimental Methods;60 3.9.3;3. Results and Discussion;61 3.9.4;4. Conclusions;64 3.9.5;References;64 3.10;-Sheeted Amyloid Fibril Based Structures for Hybrid Nanoobjects on Solid Surfaces;66 3.10.1;1. Introduction;66 3.10.2;2. Samples and Experimental Methods;67 3.10.3;3. Results and Discussion;67 3.10.4;4. Conclusions;70 3.10.5;Acknowledgement.;70 3.10.6;References;70 3.11;Characteristics of Vacuum Deposited Sucrose Thin Films;71 3.11.1;1. Introduction;71 3.11.2;2. Experimental Methods;71 3.11.3;3. Results and Discussion;72 3.11.4;References;75 3.12;Electropolymerization of Polypyrrole Films in Aqueous Solution

with Side-Coupler Agent to Hydrophobic Groups;76 3.12.1;1. Introduction;76 3.12.2;2. Experimental Methods;77 3.12.3;3. Results and Discussion;78 3.12.4;4. Conclusions;81 3.12.5;References;81 3.13;Surface Modification of Polymer Powders by a Far Cold Remote Nitrogen Plasma in Fluidized Bed;82 3.13.1;1. Introduction;82 3.13.2;2. Experimental;82 3.13.3;3. Results and Discussion;83 3.13.4;4. Conclusions;86 3.13.5;References;86 3.14;Features of Polytetrafluoroethylene Coating Growth on Activated Surfaces from Gas Phase;87 3.14.1;1. Introduction;87 3.14.2;2. Experimental Methods;87 3.14.3;3. Results and Discussion;88 3.14.4;4. Conclusion;91 3.14.5;References;91 3.15;Modification of Amorphous Carbon Film Surfaces by Thermal Grafting of Alkene Molecules;92 3.15.1;1. Introduction;92 3.15.2;2. Experimental Methods;93 3.15.3;3. Results and Discussion;93 3.15.4;4. Conclusion;94 3.15.5;References;94 3.16;Surfaces DNA-controlled Assemblage of Ag Nanoparticles on Solid ;95 3.16.1;1. Introduction;95 3.16.2;2. Samples and Experimental Methods;96 3.16.3;3. Results and Discussion;96 3.16.4;4. Conclusions;99 3.17;Characterization of Self Assembled Monolayer Formation of 11-Mercaptoundecanoic Acid on Gold Surfaces;100 3.17.1;1. Introduction;100 3.17.2;2. Experimental Methods;101 3.17.3;3. Results and Discussion;101 3.17.4;4. Conclusions;104 3.17.5;References;104 3.18;Au-foils by Physical Vapor Deposition in UHV SAMs of 11-MUA Grown on Polycrystalline EAN/ISBN : 9783540959304 Publisher(s): Springer, Berlin Format: ePub/PDF
