

## Mp3 Carroll Boomer, Jr. - It's The Word !

[DOWNLOAD HERE](#)

A soulful original mixture of urban gospel with that old school flavor. Musically superb. 8 MP3 Songs

GOSPEL: Contemporary Gospel, GOSPEL: Traditional Gospel Details: Carroll Boomer Jr. Better known as Mr. Unique, Carroll was told that he was ahead of his time. At a very young age people would say, hes not like us. Carroll had no problem with this at all because unique people stand out from the rest. He never did things to bring attention to himself. Carroll Boomer, Boomer as he is known to colleagues and friends, has a gift to produce, write, arrange, sing and play the music he comes up with. He made his first song at the tender age of six. It consisted of the open E string of his guitar and the open A string and he named it Hey There. He later won first place in a talent show at the High School he attended in which he sang a song he produced. It really became a reality of what he wanted to do while visiting Las Vegas staying at the MGM Grand Hotel. People started running up to him asking for his autograph and paying him to take a picture of him. He would always tell the people that he was not a famous person; but their response was you look like you are. He was in the company of Susanne Summers, George Burns, Dionne Warwick and Black Stone the magician. They still insisted on taking his picture instead. Boomer attended Pantego High School, N.C., graduated and went to Teamer School of Religion and received his BTH degree. With the help of GOD and his teammate, Jerry Teel he has completed his first CD titled Its The Word. Boomer writes songs that can reach the world for Jesus. He had the privilege of working with Willie Collins of New York with Capitol Records. Its time to come forth and be a blessing to someone out there. In Ecclesiastes 3:1 the word of God says to everything there is a season, and a time to every purpose under the heavens. The album will show the talent and verity he has as a gifted man of God. To God be the glory.
