Blues based with elements of New Orleans R&B and Rock N Roll 11 MP3 Songs BLUES: Electric Blues, BLUES: Guitar Blues Details: Finally the critically acclaimed debut LP from this popular SF Bay Area blues duo is available digitally remastered and with a bonus (previously unreleased) acoustic track included. This LP reached BILLBOARD MAGAZINE'S TOP TEN for radio play in the Pacific Northwest when it was originally released in 1987, and it remains a staple of blues radio today, thanks to clean classic production by David Burgin, a killer band featuring the singular rhythm guitar of AMOS GARRETT, keyboards by ROBERT CRAY's JIMMY PUGH, HUEY LEWIS horn man ROB SUDDUTH, and VAN MORRISON bassist DAVID HAYES, along with a host of other great players, DOUG's stinging guitar work, and, obviously...JAN'S voice...and their way cool songs. CHECK OUT WHAT REVIEWERS HAVE SAID ABOUT THIS RECORD: "...Hamblin and Faucci are a twosome specializing in ..well, fiery, bluesy, incredibly sincere music. Doug Hamblin with a superb backing band, kicks necessary booty, Jan Fanucci is a modern blues madame singing much the same way England's Alf Moyet does, with youthful contemporary exuberance, but with a tip-of-the-hat to elder masters like Lady Day and Etta James...This record kicks the crap out of most of the "major label" stuff I listened to...get your own copy 'cuz I ain't givin' up mine!" --Kent Zimmerman, The Gavin Report "Tired of the same ol' blues? This one may be just what the doctor ordered." --College Music Journal
