Instrumental jazz guitar music for babies and toddlers. 10 MP3 Songs KIDS/FAMILY: General Children's Music, JAZZ: Weird Jazz Details: Baby Jazz is instrumental jazz guitar music designed for babies and toddlers. It was created by accident after my daughter was born because I was always playing guitar for her. I started to arrange classic childrens songs with a jazz twist. Having a background in education and several degrees in Jazz Guitar Performance, I realized that Baby Jazz could expose children to a style of music that is not prevalent in the genre of music for children.
