Melodic Pop/Rock music that is original, interesting, shocking, thought provoking. 13 MP3 Songs POP: 60's Pop, POP: Beatles-pop Details: Grayson Wray lives in Los Angeles where he has been working continuously in his studio to produce his music. In past years he has had a number of bands and has played a variety of Hollywood clubs. Grayson loves music and creating music. He only does what's in his heart and what he feels is right for him. He's not afraid to take chances with his music and has been labeled as an excentric. His artistic decisions are never based on money. His only ambition is to contribute quality music to the world, as he feels the music readily available to the public has gone down in recent years. Of course, much of this decline in music can be contributed to corporations running the music business. College, Internet and Satellite Radio have been playing Grayson's music for a number of years. The new band played on the this album and the results were excellent.
