The idea comes from her own childhood. "I grew up in a predominately poor, high crime area. So, for me music was an escape from reality. It gave me something to look forward to and a reason to avoid the pitfalls of my environment. With this program I hope to provide another youth an escape, by helping them to continue their love of music," she states. "FREE TO BE ME!" this the name of the upcoming CD. Juanita has been away for sometime working on this upcoming project which is guaranteed to please. Juanita stated, "This CD for me was all about spiritual growth. I feel that my faith was really put to the test with this project, in and out of the studio. I entered areas that I had never tried before such as Jazz, spoken word and more challenging lyrics. The idea behind the CD was to provide a message for all walks of life. I have something for believers and non believers, white and black, the young and the old. With this CD I tried to meet people where they were and to provide a word that would penetrate hearts and break yokes." Her success has everything to do with her mission and she makes no bones about where the "road to success" lies ahead of her. "It's about fulfilling a promise to God. My promise is the vocal ministry that I'm building for the sake of today's teenage girls. I believe that today's young women need understanding, caring, mentoring and someone who can help them believe in their dreams. My dedication is real and I show the kids this every chance I get by allowing them to be apart of my ministry expressing whatever gift and talent they have in public. I tell them through God, all things are possible. " One thing you can count on about this artist is that she is determined not only to light up the sky, but also the whole world around her.
