Modern Blues Steeped in the Sweet tea Southern tradition. Slide guitar, Hammond organ and white hot harp playin' augment this new on the scene Blues Queen's debut. 10 MP3 Songs BLUES: Blues Vocals, ROCK: Americana Details: Laura Lockie and Charles King make music the old fashioned way, from the heart and filtered through the time tested traditions of American music from the past 50 years. These are not imitators plowing the fields cut out by Southern Rock legends like the Allman Brothers and Stevie Ray Vaughn, but instead original creators with a fresh take and something to say. There's more than enough raw emotion and honesty to draw you into Lockie's intimate vocals and portraits of life from someone who's been around the block once or twice and came back with a story to tell. Charles King's guitar and slide work represent a lifetime of history in music and more. Supporting musicians include Albey Sholes on harp, Amy Lee from Buffet's band and the Neville Brothers on Horns and Horn arrangement, Bill Puett on Soprano Sax, Joey Huffman on Hammond B3 organ. This CD was produced by Jimmy Byrd who has worked with the Black Crowes and Smashing Pumpkins. Check out "What You Want", "Something Good" and our cover of the great Jimmy Reed's "Baby What you Want me to do".
