

Mp3 Synaxis Of The Saints Of America - Electronic: Techno

[DOWNLOAD HERE](#)

Eclectic, yet accessible, electronica spanning numerous genres. 10 MP3 Songs ELECTRONIC: Techno, ELECTRONIC: Ambient Details: Synaxis of the Saints of America features an eclectic mix of loop-based electronic compositions spanning numerous genres. It was composed entirely in Apple's GarageBand over the course of five days in early February. About the Composer: David Ozab began playing guitar at sixteen. He played and sang in the bands Spectre, Rosewater Foundation, and Farpoint before deciding to pursue a full-time career as a "serious" composer. His compositions have been played in festivals both across the country and abroad. A CD of his computer music (Tempo Ficta) is also available through CD Baby.
