Here's what happened. One day, we were working in our laboratory on a secret formula cologne which we believed would make us unbelievably handsome and outgoing. Suddenly, upon adding the wrong ingredient, we had an explosion which somehow transformed us into confident, fun loving Superheroes! The odd thing was, the explosion didn't change how we looked, we still looked the same (except for messing up our hair and breaking our glasses). What it changed was our attitude. We now realized "It's not what you look like on the outside, it's the kind of person you are on the inside that's important". For the first time, we believed in ourselves. We were no longer nerds...We became "Superheroes" on a mission to save the world!
