

Mp3 3 Blind Mice - Good Grief

[DOWNLOAD HERE](#)

Credibly incredible songs for losers, sinners, winners, wanters, muso's, don't knows, kids and ghosts. 14 MP3 Songs POP: British Pop, POP: Quirky Details: The core of this unusual band comprises: ALEX GRAYSON who plays guitars, sings lead harmony and writes songs on subjects not tackled by well-balanced songwriters and LYNDON J CONNAH who plays keyboards, guitars, bass, percussion kazoo, sings lead and harmony and writes songs, equally eccentric but very different. Often augmented by Sean Kane (drums, backing vocals), Andy Herbert (bass guitar), Ian Close (sax) and an assortment of guests, the music they create seems to inhabit a rocky road less travelled. Influences include The Beatles, Joni Mitchell, Stephen Sondheim, Led Zeppelin, Weather Report, Steely Dan Thomas Dolby. Comparisons, however, have also been made with Crosby, Stills, Nash Young, Abba meets the Pet Shop Boys (?!), Todd Rundgren, Ben Folds Five, Peter Gabriel, Genesis, Bruce Hornsby, Talking Heads, XTC, Simon Garfunkel, Crowded House, etc.. Get the picture? Neither do we! So what can you expect to hear on this CD? Well.... * Music for people who can't make up their minds, bless 'em. * Songs that make you go "ping!" * The musical equivalent of Disneyland (Paris). * Music that goes up.... and down..... and up..... and stops. * Songs that go.... wiggybambamstingbucketwormhole. * Songs that go.... la la la de da da ow! get your leg out of my mulcher.
