Bobby then known as Harold became a part of the Motown family. Who!!! was there at the time? Marv Johnson, Marvin Gaye, Mary Wells, Smokey and all the Miracles, Diana Ross and the Supremes of Course just the Supremes then and there were four of them, the Temptations, he was there when Stevie Wonder auditioned for Motown singing a Jackie Wilson song.His reason for leaving Motown is a story.He'll hold those things back a bit longer. While in Detroit Bobby was hanging out at Billy Davis's house ,Billy and Barry Gordy use to write together, they wrote songs for Jackie Wilson.Living in Billy's house was David Ruffin. David and he developed a friendship. Practiced singing different vocal runs. It was know surprise to him, to hear David was with the Temptations. Bobby moved on to Chicago and signed with Chess Record co.Never getting A release from Motown. At Chess he was hired to sing with Fontella Bass, He took Bobby McClure place. Now it's Fontella Bass Bobby Hutton and thats how he got the name Bobby. Their first job was at the world famous Apollo Theater New York City.Next he signed with Philips record co.recording songs like[Come see whats left of me,] [more today than yesterday,] [I can't stand a woman two timing her man] [Your my whole reason,] written by Donnie Hathaway. That song was the song Bobby sang on the very first nation wide [Soultrain show].Over thirty years ago along with Glayds knight

and the Pips.,Eddie Kendricks,and the Honey Cones.Later Bobby would sign with ABC Dunhill where he recorded Northern Soul Anthem[Lend a hand.] BobbyHutton is very well known in Northern soul,In the north part of England.Bobby Hutton still today makes his living just singing. Go to [BobbyHutton uk] for more information on BH.Bobby's concept on this cd is to show the jazz,background that has kept him in the music business his ability to sing jazz,and classic standards,as well as r&b,gave him longevity.For those years without a record deal singing in Hotels,Clubs,Casinos,and private functions have kept him busy.And learning a whole lot of songs he had to sing everybodys songs except his own thats what drove him back to recording.He has a lot of unreleased songs already recorded in 80's.These are the Labels he's been on Motown to Chess to Phillips,to ABC Dunhill.And now produceing himself,feels the R&B market has been huge for him realizing,steppers music considered to be grownfolks music is r&b, for without jazz,r&b,contemporary,etc.he would not be complete as a artist.[The best is yet to come.]
