Raunchy, Edgy Rock Music from one of Bermuda's most popular working musicians. 8 MP3 Songs
ROCK: Hard Rock, ROCK: 90's Rock Details: Born a rock'n roll rebel Gary has dared to rock the small, conservative island of Bermuda by playing his original rock tunes which go entirely against the grain of this ultra-conservative British colony. In a country where calypso, gospel and reggae are the mainstream, Gary has earned a reputation as a wild man and bad-boy simply by playing and living rock'n roll! God Bless the conservative geeks! Although not loved by his peers who contentedly play cover songs at hotel gigs and conventions, Gary's reputation as a top class songwriter cannot be denied. These songs are for those who dare to rock! And Will!
