Accompanied by a piano both mysteriously sparse and full, Liz brings a thoughtful and rich voice to the singer-songwriter tradition. 13 MP3 Songs POP: Piano, FOLK: Folk Pop Details: Music occupies time--you listen to a song and watch the CD timer mark seconds. Sometimes it can give you a sense of space too. Liz's voice evokes a space. Her music's simplicity leaves room for you to breathe in the emotional space where she drops her guard. The emotions invite the listener, partly because of their sweetness; after all, bittersweet is sweet nonetheless. She might remind you a little of the Joni Mitchell you hear in "Blue." Her singing, both simple and rich, floats from the lips of a thoughtful writer and a true craftswoman.
