The concepts and journey you will take via this self titled album are unique, rhythmic, sexy and just plain "great"... 11 MP3 Songs URBAN/R&B: R&B Pop Crossover, POP: Today's Top 40 Details: Many years ago, I was given the assignment of teaching a very talented young lady to sing popular music. She was attractive and possessed a great personality but no matter how much I tried (and she tried so hard) I couldn't get her to eliminate the country twang and the Southern intonations in her voice. Don't get me wrong,...the sound of her voice was beautiful, almost heavenly...But it was going to take much more time for "her people" and her producers to believe that she was ready for the "Top 40". We eventually concluded that it would be much better if she pursued a career in country music... She held back the laughter though she was very polite... It seems that I should have known who she was...I was made aware of her identity subsequent to her departure. I don't know which rock I was living under at the time but she had a huge country career going at the time! I shouldn't tell you her name, but her initials are "T.T."! It was a pleasure working with you, "T---a"...You're truly one of the best at what you do!!! My self titled album, "Thaddeus Carlton" features what I do best...Write songs!...The collection is about LIFE. "The First Kiss" explains the fantasy associated with being in love..."Right Number" is about a guy who calls his girl's phone number and a guy answers (you can imagine what happens then!!!!!!) "American Idol" speaks of the phenomenon that the popular TV show of the same name has created..."I Just Want To Dance" is just that. "Things Change" mentions the injustices that surround the court cases of Martha Stewart, Michael Jackson, Kobe Bryant and the everyday female and Black man in society. "Spy Movie" is a cool instrumental with an espionage feel. "If Ever" is about a love that will never die..."I'm Still In Love" dramatically describes how it feels when someone hurts you and leaves you and you still want them back. "Keep On Doin' To Me" is about loving someone who doesn't even know your name..."Over

And Over Again" says that you know your potential lover is in love with you but they just won't admit it!...and finally..."Tell It Like It Is" asks your 'significant other' to stop leading you on and "Tell It Like It Is" if they've got someone else! As always,...I write the songs for you...I haven't experienced all of the emotions I express in my songs personally (otherwise I'd be an emotional mess...I wouldn't have time to write tunes, I'd be in therapy all of the time!) but I feel for you...No matter who we are,...we've had pain and joy and sorrow and good times and bad times and happy times and sad times and...you get the picture,...All of us need support...My way of supporting you is writing songs that you can relate to...So, listen to my music and lyrics...even if you don't need a shoulder to cry on...I make very good music...Its fun to listen to...Its rhythmic...Its well orchestrated...Its for you!!! (Wow, this guy seems pretty confident, almost arrogant, that he is very good...MAYBE EVERYBODY SHOULD FEEL THIS GOOD ABOUT THEMSELVES!!! WE ALL WANT TO SAY IT,...BUT WE'RE EITHER TOO SHY OR TOO CONDITIONED BY THE NEGATIVES THAT WE'VE RECEIVED FROM OUR ENVIRONMENT TO ADMIT IT...ALRIGHT... EVERYBODY TOGETHER NOW..."I CAN DO ANYTHING!!!! I WILL BE SUCCESSFUL AT WHATEVER I DO!!!!...Repeat these affirmations and they will definitely help you a lot the next time you apply for a job or ask for a raise or start you own business!!!)
