A brilliant combination of experimental hip-hop and funky house music with electro-jazz undertones. 16 MP3 Songs ELECTRONIC: Dance, HIP HOP/RAP: Alternative Hip Hop Details: Well on his way to becoming one of Alternative Hip-Hop's MVP's, Tori Fixx packs plenty of rhythmic jams, sexual exploration and lyrical introspection onto his latest CD (the first of three). Whether controlling every aspect of the party from bartenders to the DJ to the crowd on the dance floor ("Black.Out", "We Goin' In") or steaming up the proceedings ("Pornography", "Talk 2 Me"), T. Fixx continues to color outside the lines. Leave it to him to pen an ode to male sexual liberation on the clever, tongue-in-cheek "And Daddy Makes 3" and "Elevator" ("Pitcher. Catcher. I do em' well with pride.") Tori's thought provoking, emotional and activist lyricism are top notch and best displayed on the eccentric, equal rights pleading "Try" and "Human Being", the heartbreaking "Rebound" and the bossa nova flavored, got-you-all-in-check anthem "Still Make Em' Dance". It's been three years since Tori Fixx had a full length release and this CD picks up where Tori's Mochasutra left off. Geared towards the club heads, however, this time around Tori is a much more mature, spiritual, socially conscious and sexier than ever. Not to mention that his overall production, performance and his Porno-Funk sound have grown immensely. With this being the first CD of a musical trilogy (all slated for release this year), the man many call "the world's best kept secret", closes the album leaving listeners wondering, "What's coming next?"
