Disc DescriptionVocal loops - Hilarious laughter loops, that actually loop to the rhythm of the beat. These are not just any laughs but only the tummy ticklers that sync to the rhythm of the beat. Lots and lots more from Freddy including a few rhythms with FX added, and Michael who's contribution to volume 1 was limited to some one shots. Michael burst outs are the most infectious of all the laughers. These loops put a smile on just about anyones face.All of these vocal loops are 'acidized' to loop in sync with the beat. As far as I know these are the only collections of laughter loops that will sync to the beat in a song. There are 437 vocal loops in 2 folders. There are 439 MB in this 24 bit version.
