Would that interest you? It's no secret that popups are effective, but traditional popups only work if your visitor doesn't have a popup blocker installed. Most popup blocker technology works the same way. Almost all popup blockers look for any code that creates a new window, and then closes that window before it even has a chance to open. This seemingly harmless technology is blocking more than just a popup, it's killing

your profits! "Impact PopUp" Uses Specialized Technology That Is Smart Enough To Get Around Those Pesky Popup Blockers! What you need to create effective popups is a something new. Something that is just as effective as a traditional popup, but smart enough to not fall prey to popup blocking technology. That is exactly what "Impact PopUp" does! You see, this new method of creating dazzling popups doesn't create a new window of any kind. In fact, it's actually part of your web page itself! Using "Impact PopUps" you can rest assured that your message will show up when you want it and create the impression you so desperately desire. Impact PopUps bypasses the popup blockers and will give you the peace of mind in knowing that your messages will be seen. What Can I Use "Impact PopUp" For? No longer will the door be slammed in your face, it will be flung wide open showing your visitors your most important message within seconds. "Impact PopUp" Is Point-And-Click Easy. If You Can Click, Copy, and Paste, You Can Do This! "Impact PopUp" is a simple Windows application that will guide you through the entire process of creating these dazzling, attention grabbing, popups. Simply point, click, and create ... It really is that easy! Impact PopUp - Step One Choose from one of the 10 professionally designed, high-impact graphics for your "Impact" popup. Simply highlight the popup template you'd like to use, and move on to step two. As you can see, "Impact PopUp" includes the most popular graphic styles, styles that have been proven to get your visitors attention. These amazing graphics allow your popup to appear as though it's almost magically floating above your website! Impact PopUp - Step Two Step two is where

the magic happens. "Impact PopUp" gives you full creative control over the look and layout of your popup. In this step you can resize the graphic template to fit your website, choose whether or not to include a close button on your template, and add the text to the template. "Impact PopUp" allows you to use any font you wish! If the font is installed on your computer, you can use it in your popup. You can also choose the color, position, and even the angle of all your text! Everything is done with just a few clicks of the mouse. Drag and drop your text, resize the image with one click, and change font colors and styles with ease.

Impact PopUp - Step Three After you've created the look for your popup, it's time to tell it how to act. Again, you have full control over your "Impact" popup, and it's all configured with a few clicks of the mouse. Set the website where you'd like your visitors to go when they click your "Impact" popup, or you can have the popup close when it's clicked. You can set the popup to open links to the same window, to a new window, or even have the popup close automatically after a few seconds. You can also set the exact position where you'd like your "Impact" popup to appear on your website. If your logo is on the left, just set the popup to appear to the right ... it's that easy. And as an option, you can set a cookie on your visitors computer so that your "Impact" popup doesn't show up again if they come back to your page.

Impact PopUp - Step Four Once you've created your "Impact" popup you'll get to see exactly how it will look and act on your website. This preview step allows you to eliminate any mistakes, and do it before your visitors ever see them. This step takes all the guesswork out of the equation. If you're not happy with your "Impact" popup, just click the back button and make your changes. If you've set your "Impact" popup to close after 7 seconds, you'll see that happen here. This is a true and accurate preview of how your popup will look on your website.

Impact PopUp - Step Five The last step in the process is to add the "Impact" popup code into an existing web page, and we've made this a snap too. Simply browse your hard drive for the web page you'd like to add your "Impact" popup to and click the "Add popup" button. Once you click that button, everything will be done for you, and in just a few seconds you're ready to go. Or, if you'd prefer, you can save the graphics to hard drive and the program will give you the code to insert anywhere in the body of your web page. Of course we like to keep things simple, but if you want to make the changes yourself, that's completely up to you. Once you're done, simply upload everything to your website and be ready to see your conversion rates go through the roof! As you can see, this really is a point and click solution that allows you to make a dramatic impact in seconds. "Impact PopUp" Crushes The Competition And Stands Head-And-Shoulders Above The Rest!
