

Mp3 Bill Majoros - Trajectories

[DOWNLOAD HERE](#)

Highly melodic instrumental guitar music reminiscent of Joe Satriani and Eric Johnson. 8 MP3 Songs

ROCK: Instrumental Rock, ROCK: Progressive Rock Details: "He's been called a young Joe Satriani and after hearing the latest from guitarist Bill Majoros it's clear he's blazing a musical trail all his own. With inventive playing and arrangements...Majoros further establishes himself as a guitarist on the rise" -20th Century Guitar Magazine, March 2003 "Majoros is hardly your typical guitar shredder, at least judging from his excellent CD... What I really admire about his Holdsworth meets Satriani style of playing is that he knows a thing or two about dynamics, not to mention variety... his proficient guitar playing and ear for laying down memorable melodies is remarkable. Recommended and not just for guitar buffs!" -Steve Pettengill, Sea of Tranquility "Majoros's style of technical mastery is very similar to [Eric] Johnson's...Every track sparkles with incredibly intricate, carefully-designed runs, fills and riffs...a ridiculous amount of guitar-playing skill...technically unimpeachable" -Splendid E-zine

Some comments from mp3listeners: "I really enjoyed the mp3s - you are an amazing guitar player!" Caitlin "I really enjoyed your stuff...very very satch-reminiscent...." Nick "You Rock!! Very cool and yes very Satch!! ...Great Chops!" Tom "Guitar playing - great!!!!" Mike "I just listened to your music and I really like it. Great guitar playing!" Christian "the chops are there...it has a Dream Theatre meets Satch vibe" Kenny "In a word...AWESOME....congrats on some very fine tunes" Mike S.A. "Your scales are crisp, emotional and solid... good,good stuff,my man" Mike M.
