An explosive mix of samba and funk. Highly energetic grooves sung in Portuguese and French. Part of Montreal Canada's unique world fusion sound. 12 MP3 Songs WORLD: Samba, ROCK: Funk Rock

Details: History : Project founded in february 2003 in Montreal, Canada by Julien Thomet. Brazilianized music : Brazilianized music is a new means of interpreting Brazil's popular music (MPB). It's a fusion between "Pagode", "Baiao", "Samba reggae" and other Brazilian rhythms with north american rhythms such as funk, rock, reggae and african roots. Goals : One of the goals is to share with the audience music that's not exported much. While it maintains the lively and joyfull feel of MPB it adds a hybrid sound thus making it richer and fresher. The result is real world beat music. Material : The repertoire is made up of original compositions in portuguese, french and spanish with a social character and wit. The CD includes a 16 page booklet with lyrics, illustrations and photos.
