Welcome to The Deluxe Radio Theatre. Please have your tickets ready and enjoy the show! The Deluxe Radio Theatre's second album "The River And The Desert" is now available right here, right now. Del Tremens (vocals, keyboards), Jeff Garr (vocals, guitars) and Patrick Dege (bass guitars) return to a fabulous opening night at the Theatre. This five-star album, their first since the 1990's is jam-packed with all new music and mayhem. Utilizing their talents, they have, once again, blended together like a fine wine (available in our lobby, of course) and produced an album that will rock you, pop you and surprise you! The Deluxe Radio Theatre was founded by the core members, Del Tremens, Jeff Garr and Patrick Dege sometime around the time the dinosaurs roamed the Earth. Disguising themselves under various names, they played for the masses and the masses found that they were good. Finally arriving home, The Deluxe Radio Theatre, they began to sharpen their skills, learn from one another and form their tight-knit sound that will endure for years. Their music ranges from the unique to the sublime and their sound varies from the rock and roll sounds of ZZ Topp to the mysterious, prog-rock inspired Pink Floyd. There is something for everyone on this album! Their sly, wink-of-the-eye look at our world will amuse you and amaze you! The critics have raved about their "walking bass lines" and their incredible "keyboards"! No one ever leaves The Theatre without a smile on their face and a song in their heart. So, don't be the last one in the know. Order your copy of "The River And The Desert" today by clicking on the button to your left. Remember, the one to my left gave me the word. And...as always...If it rocks, It's Deluxe!
