I have also won hip-hop showcases in Detroit, Michigan and freestyle rap competitions in LA. This new rap album, "Philosophical View", recorded in the studio on August 3rd, 2004 is the some of the best material I have recorded since I started the artform of emceeing. All the new rap songs written and rapped from the life experience i have explored through a self-attained philosophical and spiritual world expressing concepts everyone could relate to. I appreciate all love, dedication and loyalty in supporting a self-evolved artform of mine, called philosophical emceeing. I am currently represented by one of the best entertainment business managing professionals on the west coast, Mister Nicollis Washburn. He is the owner of NWE Management, please check out his website at nwe-management.com. For the people that listen to these inspiring, lyrical songs on the website please give me some insightful feedback on what you think about the enhancing content of the rhythmically expressed lyrics. I have recently been in the studio recording new freeverse tracks, with a new lyrical song i wrote called 'medicine' all about my visual perceptions and expressions of my endeavors dealing with the different formulas of medicine throughout my childhood to now. I love the artform of emceeing more than alot of exciting life pleasures it gives my soul freedom, expressive and intellectual characteristics that makes me emcee truth, dealing only with what ive been through,

absorbing recording knowledge through the years and also converting that knowledge with book knowledge to make understandable family, business, and daily morals into a lyrical solution to certain life wonders. I break my emceeing down to a flowing, rhythmic, melodic, world view-telling wave of philosophy so people struggling with certain issues they can listen to my inspirational lyrics and see life clearer. Brightening their own frame of mind into exploring their shining talents and to pursue their deepest passions with multiple artforms. Thats my main goal in each song i write and perform for the world to be entertained and positively inspired and influenced to pursue greatness. THIS SITE IS FOR PROMOTIONAL USE ONLY! THE ALBUM IS AVAILABLE THROUGH CD BABY DISTRIBUTION ON THIS WEBSITE NOW!
