Biodegradable, sanitized, and home cooked for your scuba diving pleasure- mind the sharks 10 MP3 Songs FOLK: Alternative Folk, POP: Beatles-pop Show all album songs: If You Say So Songs Details: Hi, I'm Ivan Sandomire, and this is the first time in a long time that i can remember using my middle name. I was born in Providence, R.I., and moved out to Washington state as a wee babe, to a fine small hamlet called Acme. Around this time, someone started playing 45's around the house (they were probably doing this before, i just wasn't conscious yet) and i danced and sang. Boy did i like that alot. Reggae, the Beatles, Motown...b-e-a-u-tiful. Anyhooser, as i grew (slowly but surely) more music that folks were making came my way, or i went their way (what is it with people and music) and i was there, and i listened and i loved it. Through various twists and or turns, i started making it myself. If You Say So is my first LP, and just like me, it was born at home. Give 'er a gander, i hope you enjoy what you listen to (even if it ain't my record). Well, it's been real nice to spend this time with you, see you down the road.
