Alternative Christian Rock. 13 MP3 Songs ROCK: Hard Rock, ROCK: Folk Rock Details: "We're common people. Small Town people. But we dream big, Sing large and play wild. We strive to write songs that fall like fire from heaven, music that lives and breathes. We reach for the divine as simple men with our hands to the sky, praying that our lives, would impact the world around us, that our souls would ring true, and that our music would find it's way into the hearts of our listeners like a long lost friend."
